

2019 AIAri Board of Directors Directory

Roni S. Phipps
Executive Director

As the Executive Director of AIA Rhode Island, Roni oversees the operations, financial health and implementation of the Chapter's programs, while seeking new opportunities for growth.

Her diverse background includes working with out of school young adults and leading the GED Team at City Year. At the Warren Alpert Medical School of Brown University she was a member of the team that created and developed a program to provide earlier hands-on experience by pairing medical students with community-based physicians. Most recently, she led the Outreach Team at HealthSource RI, to inform all Rhode Islanders of the opportunities available through the Affordable Care Act. She also currently serves as the Executive Director of the RI Chapter of the American College of Physicians.

She studied education at Case Western Reserve University, with a minor in art history and has taken graduate class work at Providence College and Rhode Island College. A lifelong learner, she often attends lectures and programs throughout Rhode Island.

Roni is active in her community, currently serving on the Housing Board of Trustees and the Planning Board, as well as the Community Advisory Board of RI Public Radio. The mother of four young adults, she lives in a historic neighborhood and home with a frequently admired flower garden in Barrington, with her teenaged dog.
