

Rhode Island

2030 Rhode MAP

MEMBERSHIP SUPPORT & ENGAGEMENT

Cultivate a thriving and inclusive membership by providing meaningful resources, networking, and leadership opportunities for architects at every career stage.

STRATEGIES

- 1 Support members** in all stages of their careers through licensing support, soft skills training, and leadership training.
- 2 Work with small firm owners** to develop a useful forum for them to network, collaborate and learn from each other.
- 3 Provide opportunities** for members to connect with the built environment community from other architects to engineers, contractors, developers, as well as within professional interest areas.
- 4 Keep our membership up-to-date** on relevant information from code changes to new materials through CEU presentations.

ADVOCACY

Advance the influence and value of architects through advocacy, civic leadership, and promotion of design excellence, sustainability, and innovation.

STRATEGIES

- 1 Advocate for and support** the best interests of architects and the built environment by remaining engaged with the Rhode Island legislature and regulatory bodies.
- 2 Connect** with our members regularly to understand their concerns to better advocate for them on a legislative and cultural level.
- 3 Celebrate** local projects and architects that embody design excellence through our design awards program.
- 4 Provide education and resources** on resiliency, sustainability and innovation.

PUBLIC ENGAGEMENT & OUTREACH

Elevate the visibility of architecture through outreach and partnerships, and strengthen educational pathways into the profession.

STRATEGIES

- 1 Curate** a consistent platform to support our members, partners, and initiatives, and allow our members to share their work with their peers and the public.
- 2 Serve** as the public's primary source to learn about and engage with the built environment.
- 3 Build and maintain** strategic relationships with allied organizations and professions.
- 4 Strengthen pathways** into the profession through K-12 outreach, engagement with architecture students in Rhode Island universities, and exploring alternative paths to architecture licensure.
